Subject: RE: draft CSD desk statement

Allison – FYI. Since we talked the following FOIA came in

Description:

"I hereby respectfully request the results of all laboratory testing for nitrate, pesticides and any other contaminants from the samples of groundwater collected by the digging of bore holes by the Environmental Protection Agency in Juneau County, Wisconsin, in the area west of Petenwell Lake, on or around the week of May 4, 2018. I request analytical results, sample collection dates, and address locations. If property locations, addresses, parcel numbers and ownership are viewed as private information and redaction is required, then I request sample locations be otherwise identified in another form of acceptable criteria like nearest quarter-quarter section, township, range, section number and county name, GPS coordinates, or other locational criteria. Thank you."

Got it – thanks. I'll share this now and ask for confirmation that we will continue to share results with residents. Our office will coordinate with DNR public affairs on the statement.

Ex. 5 Deliberative Process (DP)

Second, as mentioned, there seems to be some concern by someone about releasing the data to impacted home owners. We have been doing that but we should confirm that we may continue to do that before stating so to the press. We should assume that the press will get those results from the individuals.

Will you coordinate the desk statement with Wisconsin?
